## DETAILED ACTION

### *Response to Amendment*

Applicant's arguments with respect to claims 6-30 and new claims 31-34 based on the Response filed on October 06, 2008 have been considered but are moot in view of the new ground(s) of rejection. Therefore, this is Final action.

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 6-34 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

In claims 6 and 12, the recitation calling for *"said orientation films have a surface tension greater than or equal to 40 dyne/cm and less than 70 dyne/cm", "spacing between said substrates is greater than 0µm and less than 3.5µm" and "said pair of orientation films comprises the same material", which was not disclosed in the original specification and constitute new subject matters.*

In claim 17, the recitation calling for *"spacing between said substrates is greater than 0µm and less than 3.5µm" and "said pair of orientation films comprises the same material", which was not disclosed in the original specification and constitute new subject matters.*

In claim 23, the recitation calling for *"said orientation films have a surface tension greater than or equal to 40 dyne/cm and less than 70 dyne/cm" and "said pair of orientation films comprises the same material"*, which are not disclosed in the original specification and constitute new subject matters.

Claims 6-11, 13-16, 18-22, 24-34 are rejected since they depend from the above rejected claims.

### ***Conclusion***

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
